# **Crystal Units**

## NX8045GB

Model

#### Features

Specifications

Frequency tolerance (25 ±3 °C)

Operating temperature range

Storage temperature range

Equivalent series resistance

Nominal frequency

Overtone order

Level of drive

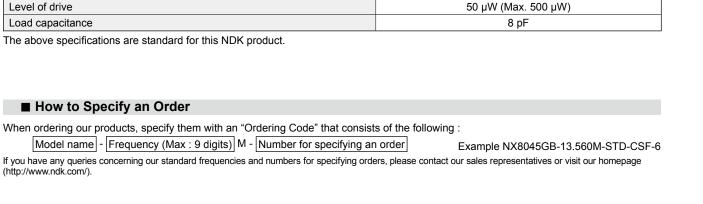

Load capacitance

Item

A small surface-mount type crystal unit, ideal for OA (office automation), AV (audiovisual) and Accessories for a car, which need performance for wide temperature range. Compatible with frequencies starting from 4 MHz. (8.0 × 4.5 × 1.8 mm typ.)

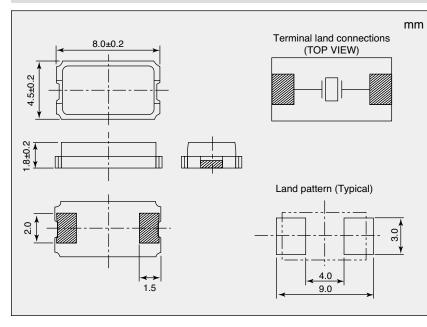

- •Excellent electrical performance, ideal for OA and AV applications.
- •Excellent environmental performance, including heat and shock resistance.
- •Meets the requirements for re-flow profiling using lead-free solder.

Frequency versus temperature characteristics (with reference to +25 °C)
